

AFTER TIME HAS PASSED

Electronic Press Kit

One of the most visually striking and musically tasteful instrumental duo's around, **AFTER TIME HAS PASSED** takes metal music to progressive new levels with unorthodox arrangements including exclusive drum patterns underneath constantly moving guitar work.

Their unique & powerful stage presentation makes this duo a sensation to see perform live. Having such a love for music & seeing their growing friend & fan base per show gives **ATHP** even more passion to write, record & perform as often as possible.

ATHP has shared the stage with some Instrumental greats: Dysrhythmia, Tetrafusion, Scale the Summit & Cavernous as well as Nothing More, Irene, A House Cursed, plus many more & more to come.

AFTER TIME HAS PASSED continues to be proactive and expand their horizons as they currently work on their 2nd Self Produced & 1st album VIA their new label, Space City Records.
